## INTEROFFICE CORRESPONDENCE

000016464

DATE: September 13, 1991  
TO: D. E. Kunz, Waste Guidance, T-130C, X5879  
FROM: *N.S.* N. S. Demos, EMD/EOM, T-130B, X5951 D3842  
SUBJECT: LETTER OF NOTIFICATION TO INCORPORATE BUILDING SITE 667  
INTO OPERABLE UNIT 10 - NSD-006-91

Environmental Operations Management (EOM) has informed Waste Guidance that Building site 667 located several hundred feet north of Building 850 will be included in Operable Unit 10 entitled "Outside Building Structures". The site will be sampled for pesticide storage contamination upon the initiation of O.U. 10.

Originally the building was used to store pesticides and then later relocated, sampled and decommissioned. Inclusion of this site into an Operable Unit will address the Federal Insecticide Fungicide Rodenticide Act (FIFRA), DOE action item #5, as it pertains to Environmental Management.

If there are any questions regarding this matter please contact Jim Koffer X5949 D1873 or myself. Thank you.
